CONTENTS.

REPORT:— Page

Population, Marriages, Births, Deaths, and Emigration in 1878 and ten previous years, . 5

MARRIAGES:

Their Number and Proportion to the Population, ... 6
Causes of Low Marriage-rate in Ireland, ... 6
Number by each mode of celebration in the years 1868-78, ... 7
Number of Licences issued by Registrars, ... 8
Number of Licensing Presbyterian Ministers and of Licences issued by them, . 8
Number of Buildings registered for Solemnization of Protestant Marriages, . . 8
Number of Roman Catholic and of Protestant Marriages registered in each quarter of the years 1875-78, ... 9
Civil Condition of Persons Married, ... 9
Ages of Persons Married, ... 9
Signatures to Marriage Registers and Certificates, ... 10
Marriage-rate in Provinces and Counties, ... 12

BIRTHS:

Their Number and Proportion to the Population, ... 12
Causes of Low Birth-rate in Ireland, ... 12
Proportion of Illegitimate Births in Ireland and the several Registration Divisions, . 13
Birth-rate in Provinces and Counties, ... 14
Number in each quarter of the years 1873-78, ... 14

DEATHS:

Their Number and Proportion to the Population, ... 14
General Remarks on the Public Health, ... 15
Death-rate in the Divisions, Provinces, and certain Counties, . . . 15
Number in each quarter of 1878 and previous five years, ... 16
Causes of Death.—I. Zymotic Diseases, ... 16
„ II. Constitutional Diseases, ... 22
„ III. Local Diseases, ... 23
„ IV. Developmental Diseases, ... 25
„ V. Violence, ... 25
Inquests, ... 26
Improvement in the Returns of the Causes of Death, ... 26
Ages at Death, ... 26

Emigration from Ireland, ... 26
Prices of Provisions, and Number of Persons in Receipt of Poor Relief, in 1878 and previous ten years, ... 27
Summary of Meteorological Observations, 1868-78, ... 28
Suggestions for Amendment of Births and Deaths Registration Act, ... 29

Table of Meteorological Observations, 1878, ...
Topographical Description of the Eight Registration Divisions of Ireland, . . .
Estimated Population of Ireland in each of the years 1801–78, ...

ABSTRACTS:—

Marriages registered in Ireland in each of the Divisions and Superintendent Registrars' Districts, also in each Province and County, in 1878, distinguishing Roman Catholic from Protestant Marriages, and giving the Total Number registered in each Quarter of the Year; the Conjugal Condition of Persons Married; the Number of Minors and of those who signed the Registers by Marks, ...

Ages of 13,776 Persons married in 1878, distinguishing those o Bachelors, Spinsters, Widowers, and Widows, ...

Marriages, Births, and Deaths registered in each of the Divisions and Superintendent Registrars' Districts, and in each Province and County in 1878; also Births and Deaths, and Excess of Births over Deaths in each of the Registrars' Districts of Ireland, distinguishing the Sexes and Illegitimate Births, ...

Births registered in the Divisions and Superintendent Registrars' Districts, and in the Provinces and Counties (distinguishing Males and Females) in each of the Four Quarters of 1878, ...

Deaths registered in each of the Four Quarters of 1878 (distinguishing Males and Females), in Divisions and Superintendent Registrars' Districts, also in Provinces and Counties,

Deaths of Males and Females at different Ages registered in 1878, in Divisions and Superintendent Registrars' Districts, also in Provinces and Counties, .

Causes of Death of Males and Females in Ireland, at different periods of life, in 1878, .

Supplementary Table of Causes of Death of Males and Females, at different periods of life, in 1878, ...

Causes of Death of Males and Females in Ireland, and in each of the Divisions, in 1878,

Deaths from several Zymotic and other Causes in 1878, in the Divisions and Superintendent Registrars' Districts, and in the Provinces and Counties, ...

Index to Superintendent Registrars' Districts, and Registrars' Districts, . .

REPORT

TO

His Grace, JOHN WINSTON, DUKE OF MARLBOROUGH, K.G.,
&c., &c., &c.,
Lord Lieutenant-General and General Governor of Ireland.

MAY IT PLEASE YOUR GRACE,—

I have the honour to submit my Report on the Marriages, Births, and Deaths registered in Ireland during the year 1878, together with the General Abstracts in which the number, season, locality, and special nature of these events are set forth in detail.

Returns prepared from data supplied for the purpose by the Registrars, and containing approximate information on some of the more salient features of the Registration records, in so far as they relate to the Public Health, were issued after the close of each Quarter; and a preliminary Annual Abstract, compiled from the same sources, was presented to Parliament early this year.

The information given in those Returns, necessarily imperfect, has since been carefully revised, and in the Abstracts now submitted the corrected results will be found incorporated with many additional features of general interest and utility.

GENERAL SUMMARY.

The Marriages registered during the year number 25,284; the Births 134,117; and the Deaths 99,629. Both absolutely and in proportion to the estimated population, the marriages and births are under, and the deaths over the annual average for the preceding ten years, the death rate being the highest recorded in any year since Registration was established in Ireland in 1864.

TABLE I.—Showing for each of the years 1868–78, the estimated **Population**; the number of **Marriages, Births,** and **Deaths** registered, and the number of **Emigrants** enumerated, with the rates per 1,000 of the estimated Population represented thereby, and the averages for the ten years 1868–77.

REPORT

TO

His Grace, JOHN WINSTON, DUKE OF MARLBOROUGH, K.G.,
&c., &c., &c.,
Lord Lieutenant-General and General Governor of Ireland.

MAY IT PLEASE YOUR GRACE,—

I have the honour to submit my Report on the Marriages, Births, and Deaths registered in Ireland during the year 1878, together with the General Abstracts in which the number, season, locality, and special nature of these events are set forth in detail.

Returns prepared from data supplied for the purpose by the Registrars, and containing approximate information on some of the more salient features of the Registration records, in so far as they relate to the Public Health, were issued after the close of each Quarter; and a preliminary Annual Abstract, compiled from the same sources, was presented to Parliament early this year.

The information given in those Returns, necessarily imperfect, has since been carefully revised, and in the Abstracts now submitted the corrected results will be found incorporated with many additional features of general interest and utility.

GENERAL SUMMARY.

The Marriages registered during the year number 25,284; the Births 134,117; and the Deaths 99,629. Both absolutely and in proportion to the estimated population, the marriages and births are under, and the deaths over the annual average for the preceding ten years, the death rate being the highest recorded in any year since Registration was established in Ireland in 1864.

TABLE I.—Showing for each of the years 1868–78, the estimated **Population**; the number of **Marriages, Births,** and **Deaths** registered, and the number of **Emigrants** enumerated, with the rates per 1,000 of the estimated Population represented thereby, and the averages for the ten years 1868–77.

1878, . .	5,351,060	25,284	134,117	99,629	41,124	4·73	25·1	18·6	7·7

* See page 34.

The recorded natural increase of population, or excess of births over deaths was 34,488, the loss by emigration, 41,124; there would thus appear to have been a decrease of 6,636, in the population during the year, but against a portion of this decrease there is a set-off in immigration of which no official record has been obtained. The estimated population in the middle of the year was 5,351,060.

MARRIAGES.

The number of marriages registered during the year was 25,284, being 1 in every 212, or 4·73 per 1,000 of the estimated population.

This rate is slightly over that for the preceding year, but is less than the low rate yielded by the average annual number of marriages registered during the ten years 1868-77, which was much under the marriage-rates in other countries, the statistics of which are available.

As the subject is of considerable importance, I beg to repeat the observations respecting it which I submitted in my Report on the Registration for the year 1875 :—

"There is no doubt that a portion of this disparity [between the marriage-rate in Ireland and that in many other countries], is due to defective registration; but the loss to be set down to this cause is not so great as might at first sight appear and the actual marriage-rate in Ireland, in proportion to the total population is, unquestionably, low.

"This is, in part, accounted for by the abnormal conditions arising from a large annual emigration of unmarried persons of what may be called the marrying ages. The consequent reduction of the sources from which the marriage ranks are recruited is accompanied by an undue increase in the proportion of the population embraced in the other age-periods, and the result tends to produce a low rate compared with the number of inhabitants at all ages.

"Again, amongst the actual population, the marriage-rate is evidently low. Thus, from the last Census Reports it appears that, while in England the per-centage of men aged 20 years and upwards who were unmarried was only 27·1, in Ireland the unmarried formed 38·3 per cent. of the total at the same ages.

"But the returns now under notice in themselves contain proof of the comparative paucity of marriages in Ireland.

"The provisions of the law respecting the registration of Protestant marriages are such that it is all but impossible any should remain unaccounted for; yet, compared, say, with the general marriage-rate for England, the result appears very unfavourable. Thus the average annual rate in England is 1 in every 119 persons, or 8·4 per 1,000 of the population, while the Protestant marriages in Ireland in 1875 only equal 1 in 168, or 5·97 per 1,000 of the estimated Protestant population. [In 1878 the rate was 5·87 per 1,000.]

"There are no grounds for assuming that marriages are proportionately more numerous among the Roman Catholic than among the Protestant inhabitants; so that marriages of the latter, if, indeed, not much over the general rate, are certainly not under it, and the extent to which the registered Roman Catholic marriages fall short of the rate yielded by marriages of Protestants is the maximum possible loss by non-registration.

"The Roman Catholic marriages registered in 1875 only afford a rate of 1 in 245, or 4·08 per 1,000 of the estimated Roman Catholic population,

which, as may be seen, is much under the rate for Protestant marriages. [In 1878 the rate was 4·37 per 1,000.]

"There are no precise data for determining how far this can be satisfactorily accounted for; but, as the Roman Catholic inhabitants constitute the great majority of the people, and include the large mass of the humbler classes, there seems but little doubt that the depression in the marriage-rate, referred to above as resulting from emigration, would be most apparent amongst them, and also that any economic reason leading to a low rate would be likely to affect them to a greater extent than it would their Protestant fellow countrymen.

"It is, however, to be feared that, after making all due allowances, the unregistered marriages, which, as may be gathered from what has been stated above, are confined to those of Roman Catholics, are still numerous.

"There is no valid reason why they should be so. The trouble involved in complying with the law regarding the registration of Roman Catholic marriages is reduced to a minimum, while the individual and the national value of a perfect record is manifest, and ought to secure the willing co-operation of all concerned."

Of the 25,284 marriages registered during the year 1878, 17,898 were between Roman Catholics, 3,900 were celebrated according to the rites and ceremonies of the late Established Church; 2,571 were in Presbyterian Meeting-houses; 390 in "Registered Buildings" belonging to various religious denominations; only 512 by civil contract in the Registrars' offices; 8 were according to the usages of the Society of Friends, and 5 according to the Jewish rite. The small number of marriages in the Registrars' offices (only 2 per cent. of the total) is in striking contrast to the proportion of civil marriages in many other countries.

TABLE II.—**Marriages** registered in Ireland in 1878 and each of the previous ten years, according to the **modes of celebration**; with the **rate** per 1,000 of the population represented:—

1877, .	3,912	2,493	344	506	8	1	7,264	17,458	24,722	5·79	4·27	4·63
Average 1868–77,	4,286	2,544	293	625	12	2	7,762	18,729	26,491	6·25	4·55	4·93
1878, .	3,900	2,571	390	512	8	5	7,386	17,898	25,284	5·87	4·37	4·73

Of the 3,900 marriages according to the rites of the late Established Church, 78 were by special licence, 3,267 by licence, 413 after the publication of banns, 13 on Registrar's certificate, and in 129 instances

there was no information afforded as to which of the foregoing methods was adopted.

During the year 1878 there were issued by the Registrars 727 Licences for Marriage in Registered Buildings and in the Registrars' offices.

The number of Marriage Licences issued by the licensing Ministers of the several Presbyterian bodies is given in the following summary :—

Presbytery or Synod.	Number of Licensing Ministers on 31st December, 1878.	Number of Registered Meeting-houses on 31st December, 1878.	Number of Licences issued.
1. General Assembly of the Presbyterian Church in Ireland,	120	553	2,420
2. Remonstrant Synod of Ulster,	9	19	54
3. Presbytery of Antrim,	4	9	21
4. United Presbytery or Synod of Munster,	3	3	4
5. Northern Presbytery of Antrim,	2	6	11
Total,	138	590	2,510

There being no civil restrictions as to the time or place for celebrating marriages between Roman Catholics in Ireland, a registration of the churches and chapels of the Roman Catholic Church is not necessary for the purposes of this office; but with reference to other religious bodies, a record is kept of the places of Divine worship in which marriages may lawfully be solemnized without special licence, and from this it appears that, on the 31st December, 1878, there were 1,504 churches and chapels of the late Established Church, 590 registered Presbyterian Meeting-houses, and 305 "Registered Buildings" belonging to various religious denominations. Compared with the previous year, these numbers show an increase of 2 as regards the late Established Church, a decrease of 5 Presbyterian Meeting-houses, and an increase of 4 "Registered Buildings."

The following statement shows the several religious bodies having "Registered Buildings" in 1878 :—

Denominations.	No. of Places of Worship.	Denominations.	No. of Places of Worship.
Wesleyan Methodists,	162	Church Methodists,	1
Reformed Presbyterians,	37	Covenanters,	1
Independents,	22	United Original Seceders,	1
Baptists,	18	"Protestant Dissenters,"	1
Primitive Wesleyan Methodists,	11	"Christians,"	1
Seceders,	10	Non Subscribing Christians,	1
United Presbyterians,	9	Non Subscribing Unitarians,	1
Methodists, New Connexion,	7	"The Catholic Apostolic Church,"	1
Moravians, or United Brethren,	6	Christian Brethren,	1
Primitive Methodists,	6	Independent Protestants,	1
Evangelical Union,	2	Jews,	1
Unitarians,	2		
Methodists,	2	Total,	305

As more than a moiety of the annual number of Roman Catholic marriages in the provinces of Munster and Connaught are celebrated between

Christmas and Shrovetide, the marriages registered in Ireland during the first quarter of the year always largely outnumber those in any of the other quarters. Thus, in 1878 the numbers recorded were—in the first quarter, 9,814; in the second, 4,664; in the third, 5,248; and in the last, 5,558.

TABLE III.—The Number of **Roman Catholic** and of **Protestant Marriages** registered in each Quarter during the four years, 1875–78 :—

QUARTER ENDING THE LAST DAY OF	Years and Number of **Marriages** Registered.							
	1875.		1876.		1877.		1878.

Total, .	16,589	7,448	18,930	7,458	17,458	7,264	17,898	7,386
General Total,	24,037		26,388		24,722		25,284	

The marriages of bachelors and spinsters constitute 85·8 per cent. of the total; those of widowers and spinsters 8·6 per cent.; of bachelors and widows 3·1 per cent; and of widowers and widows 2·5 per cent. Thus, 11 in every 100 of the men married were widowers, and 6 per cent. of the women were widows; and in 14 instances in every 100 marriages one or both of the contracting parties had been in the married state before.

A complete registry of the exact ages of the persons married would be valuable from many points of view; hence it is matter for regret that in the great majority of instances the ages are not recorded. The requirements of the law are technically complied with by the entry in the age column of "minor" or "of full age," as the case may be, and there seems to be a general and increasing inclination to take advantage of this circumstance, as in 1878 the ages of both parties were specified in only 6,883 instances, being little more than one-fourth of the total number of marriages. In the year 1865, when 30,802 marriages were registered, the ages of both parties were given in 13,910 instances.

Of 25,284 men married during the year, 671, or 2·65 per cent. were minors; and of the women married, 3,100, or 12·26 per cent. were under age. These proportions differ but slightly from the averages for the preceding ten years.

The highest proportion of husbands married under age in 1878, 3·24 per cent., was in the North-Eastern Division, which includes Belfast and nearly all the northern manufacturing districts; and the highest per centage of wives, 18·11, was in the Western Division. These results coincide with those in the preceding ten years.

It may be added, that the per-centage of persons married in Ireland who were under age is very far below the corresponding rates in England and Scotland.

The signatures of the contracting parties in the marriage registers or certificates afford a rough test of the progress of elementary education. In the year 1878, 18,070, or 71·5 per cent. of the husbands, and 16,775, or 66·3 per cent. of the wives, wrote their names, and the remainder signed by marks.

These figures, though still leaving much to be desired, contrast hopefully with the corresponding results twelve years since, the per-centage of persons married in 1867 who wrote their names being—men 62·7, and women 52·2.

As usual, the most favourable results appear in the Eastern or Metropolitan Division, and the least satisfactory in the Western and the North-Western Divisions, the number who wrote their names varying from 79 in every 100 men and 76 in every 100 women in the Eastern, to 62 per cent. of the men married in the Western, and 59 per cent. of the women married in the North-Western division.

The number of marriages registered in each of the eleven years 1868–78; the proportion per cent. of persons married who wrote their names in the registers, of minors, of widowers, and of widows, are given in the following table, for the several registration divisions:—

TABLE IV.—The Number of **Marriages** in the Eight Registration Divisions of Ireland* during the years 1868–78, and proportion per cent. of Persons **who signed their Names**, of Persons **not of Full Age**, and of **Re-marriages.**

	1878	3,797	70·9	64·8	2·74	14·49	10·75	6·51

there was no information afforded as to which of the foregoing methods was adopted.

During the year 1878 there were issued by the Registrars 727 Licences for Marriage in Registered Buildings and in the Registrars' offices.

The number of Marriage Licences issued by the licensing Ministers of the several Presbyterian bodies is given in the following summary :—

Presbytery or Synod.	Number of Licensing Ministers on 31st December, 1878.	Number of Registered Meeting-houses on 31st December, 1878.	Number of Licences issued.
1. General Assembly of the Presbyterian Church in Ireland,	120	553	2,420
2. Remonstrant Synod of Ulster,	9	19	54
3. Presbytery of Antrim,	4	9	21
4. United Presbytery or Synod of Munster,	3	3	4
5. Northern Presbytery of Antrim,	2	6	11
Total,	138	590	2,510

There being no civil restrictions as to the time or place for celebrating marriages between Roman Catholics in Ireland, a registration of the churches and chapels of the Roman Catholic Church is not necessary for the purposes of this office; but with reference to other religious bodies, a record is kept of the places of Divine worship in which marriages may lawfully be solemnized without special licence, and from this it appears that, on the 31st December, 1878, there were 1,504 churches and chapels of the late Established Church, 590 registered Presbyterian Meeting-houses, and 305 "Registered Buildings" belonging to various religious denominations. Compared with the previous year, these numbers show an increase of 2 as regards the late Established Church, a decrease of 5 Presbyterian Meeting-houses, and an increase of 4 "Registered Buildings."

The following statement shows the several religious bodies having "Registered Buildings" in 1878 :—

Denominations.	No. of Places of Worship.	Denominations.	No. of Places of Worship.
Wesleyan Methodists,	162	Church Methodists,	1
Reformed Presbyterians,	37	Covenanters,	1
Independents,	22	United Original Seceders,	1
Baptists,	18	"Protestant Dissenters,"	1
Primitive Wesleyan Methodists,	11	"Christians,"	1
Seceders,	10	Non Subscribing Christians,	1
United Presbyterians,	9	Non Subscribing Unitarians,	1
Methodists, New Connexion,	7	"The Catholic Apostolic Church,"	1
Moravians, or United Brethren,	6	Christian Brethren,	1
Primitive Methodists,	6	Independent Protestants,	1
Evangelical Union,	2	Jews,	1
Unitarians,	2		
Methodists,	2	Total,	305

As more than a moiety of the annual number of Roman Catholic marriages in the provinces of Munster and Connaught are celebrated between

Christmas and Shrovetide, the marriages registered in Ireland during the first quarter of the year always largely outnumber those in any of the other quarters. Thus, in 1878 the numbers recorded were—in the first quarter, 9,814; in the second, 4,664; in the third, 5,248; and in the last, 5,558.

TABLE III.—The Number of **Roman Catholic** and of **Protestant Marriages** registered in each Quarter during the four years, 1875–78 :—

QUARTER ENDING THE LAST DAY OF	Years and Number of **Marriages** Registered.							
	1875.		1876.		1877.		1878.

General Total,	24,037		26,388		24,722		25,284	

The marriages of bachelors and spinsters constitute 85·8 per cent. of the total; those of widowers and spinsters 8·6 per cent.; of bachelors and widows 3·1 per cent; and of widowers and widows 2·5 per cent. Thus, 11 in every 100 of the men married were widowers, and 6 per cent. of the women were widows; and in 14 instances in every 100 marriages one or both of the contracting parties had been in the married state before.

A complete registry of the exact ages of the persons married would be valuable from many points of view; hence it is matter for regret that in the great majority of instances the ages are not recorded. The requirements of the law are technically complied with by the entry in the age column of "minor" or "of full age," as the case may be, and there seems to be a general and increasing inclination to take advantage of this circumstance, as in 1878 the ages of both parties were specified in only 6,883 instances, being little more than one-fourth of the total number of marriages. In the year 1865, when 30,802 marriages were registered, the ages of both parties were given in 13,910 instances.

Of 25,284 men married during the year, 671, or 2·65 per cent. were minors; and of the women married, 3,100, or 12·26 per cent. were under age. These proportions differ but slightly from the averages for the preceding ten years.

The highest proportion of husbands married under age in 1878, 3·24 per cent., was in the North-Eastern Division, which includes Belfast and nearly all the northern manufacturing districts; and the highest per centage of wives, 18·11, was in the Western Division. These results coincide with those in the preceding ten years.

It may be added, that the per-centage of persons married in Ireland who were under age is very far below the corresponding rates in England and Scotland.

The signatures of the contracting parties in the marriage registers or certificates afford a rough test of the progress of elementary education. In the year 1878, 18,070, or 71·5 per cent. of the husbands, and 16,775, or 66·3 per cent. of the wives, wrote their names, and the remainder signed by marks.

These figures, though still leaving much to be desired, contrast hopefully with the corresponding results twelve years since, the per-centage of persons married in 1867 who wrote their names being—men 62·7, and women 52·2.

As usual, the most favourable results appear in the Eastern or Metropolitan Division, and the least satisfactory in the Western and the North-Western Divisions, the number who wrote their names varying from 79 in every 100 men and 76 in every 100 women in the Eastern, to 62 per cent. of the men married in the Western, and 59 per cent. of the women married in the North-Western division.

The number of marriages registered in each of the eleven years 1868–78; the proportion per cent. of persons married who wrote their names in the registers, of minors, of widowers, and of widows, are given in the following table, for the several registration divisions:—

TABLE IV.—The Number of **Marriages** in the Eight Registration Divisions of Ireland* during the years 1868–78, and proportion per cent. of Persons who **signed their Names,** of Persons **not of Full Age,** and of **Re-marriages.**

	1871	4,497	60·8	51·4	2·45	14·81	11·41	6·85
	1872	4,097	64·9	57·1	1·88	14·91	10·96	7·05
	1873	3,867	67·8	58·3	2·64	13·71	11·40	7·63
	1874	3,637	70·1	62·6	2·20	13·45	9·73	6·79
	1875	3,484	67·9	59·6	3·24	14·67	12·00	6·92
	1876	3,961	68·0	62·3	2·25	13·33	12·07	7·09
	1877	3,606	69·9	63·6	2·97	14·34	11·59	6·46
	1878	3,797	70·9	64·8	2·74	14·49	10·75	6·51

In the province of Leinster, 76·1 per cent. of the men, and 74 per cent. of the women married wrote their names; in Munster, 71·4 per cent. of the men, and 66·0 per cent. of the women; in Ulster, 72 in every 100 men, and 63 in every 100 women; and in Connaught, only 62·0 per cent. of the men, and 59·6 per cent. of the women.

In 5,078 instances, both of the parties married signed the register by "mark," and in 5,567 cases the register was thus signed by either the husband or the wife, so that in 10,645 instances, or 42·1 per cent. of the total number of marriages, one or both of the parties signed by mark; and in 14,639 instances, or 57·9 per cent., *both* parties wrote their names.

In proportion to the estimated population at all ages the registered marriages were most numerous in the province of Leinster, in which, however, the rate was only 5·2 per 1,000 persons; Ulster comes next, with 4·9 per 1,000; Munster third, with 4·5 per 1,000; and Connaught last, the rate being 4·0 per 1,000.

The highest rate in any county was 7·3 per 1,000, which was the marriage rate for Dublin; and the lowest 3·5 per 1,000 for Queen's County. Between these, the most favourable were 5·9 for Antrim, 5·3 in Armagh, 5·2 in Londonderry, and 5·0 in Kerry and Down; and the least so 3·6 in Meath and Sligo and 3·7 in Fermanagh and Monaghan.

BIRTHS.

The number of births registered during the year 1878 is 134,117—68,549 boys, and 65,568 girls, or 104·6 of the former to every 100 of the latter—the rate afforded in proportion to the total population being 1 in 39·9, or 25·1 per 1,000, which is considerably under the low average rate (26·9 per 1,000) for the ten years, 1868–77, and less than the rate in any of those years.

In my report for the year 1875, I glanced at the causes of the comparatively low birth-rate in Ireland, and the following observations, which I then made, are almost equally applicable to the year now under review:—

"It has been seen that the marriages *registered* in Ireland, when compared with the total population, fall far short of the proportion in England. The births, too, present a contrast—not, indeed, so striking, but still sufficiently so to call for explanation; the average rate in England being 35·4 per 1,000 persons, against 26·9 per 1,000 in Ireland.

"A large portion of the disparity between the marriage rates has been accounted for, and shown to be owing to the special circumstances of Ireland, and it is obvious, that, speaking in general terms, there must be a corresponding difference between the birth-rates.

"Pursuing the inquiry with special reference to births, and omitting, for the present, those of children born out of wedlock, it is found that the average rate of legitimate births in England for the ten years 1865–74 was 33·4 per 1,000 of the population, and that the corresponding rate in Ireland was only 26·1 per 1,000.

"The conclusion at first naturally suggested by these figures is that the registration of births in Ireland must be very defective; but, on examination this proves to be, in great part, erroneous.

"In 1871, according to the Census, the married women in England between the ages of 15 and 55, which may be taken as the limits of the childbearing period, formed 14·7 per cent. of the total population at all ages, and in Ireland the corresponding proportion was only 11·8 per cent., or, in other words, there were five married women, possible mothers, in England to 4 in an equal number of the population in Ireland. Taking the ages 15 to 45 years, the difference is even greater.

"Assuming the actual births to be in the same ratio to the number of married women in each of the two countries, it is evident that the births in any given number of the total population in Ireland must be less than the corresponding rate in England to the extent that the proportion of married women in the former country falls short of that for the latter.

"This being so, the respective rates for legitimate births, given above, namely, 26·1 per 1,000 persons in Ireland, and 33·4 per 1,000 in England, are reconcileable, as they bear the same ratio to each other as the relative proportion of married women in the population; and, looking at the numbers from another point, it is found that the births in England are annually equal to 224 to every 1,000 married women of the child-bearing ages, and that the registered births in Ireland, equal 223 per 1,000.

"There is a popular opinion that the mothers of Ireland are more fruitful than those of England; but this, if true in the abstract, must, under present conditions, be to a certain extent neutralized by the comparatively late period of life at which many marriages in Ireland now take place."

Of the 134,117 children whose births were registered in Ireland during the year 1878, 131,022, or 97·7 per cent., were legitimate, and 3,095, or 2·3 per cent., were illegitimate. The average per-centage of illegitimate births in the preceding 10 years was 2·6.

It is unnecessary to say that these results compare very favourably with the returns for most other countries.

Of the children born in wedlock during the year, 66,973 were males, and 64,049 females, being 105 of the former to every 100 of the latter; and of the illegitimate children 1,576 were males, and 1,519 females, or 104 boys to 100 girls.

TABLE V.—The Per-centage of **Legitimate** and **Illegitimate** Births registered in Ireland during the years 1874–78, by Divisions.

Divisions.	Proportion per cent. of Legitimate Births.					Proportion per cent. of Illegitimate Births.

North Midland, .	98·6	98·6	98·5	98·4	98·5	1·4	1·4	1·5	1·6	1·5
South Midland, .	97·7	98·1	98·0	98·2	97·9	2·3	1·9	2·0	1·8	2·1
Western, . .	99·2	99·2	99·2	99·2	99·2	0·8	0·8	0·8	0·8	0·8
South-Eastern, .	97·4	97·3	97·5	96·9	97·4	2·6	2·7	2·5	3·1	2·6
South-Western, .	98·7	98·7	98·7	98·7	98·7	1·3	1·3	1·3	1·3	1·3

As in previous years, the lowest per-centage of children born out of wedlock was in the Western Division, and the highest in the North-Eastern division. The order of the several divisions is as follows:—Western 0·8 per cent. of total births; South-Western, 1·3; North Midland, 1·5; Eastern, 1·8; South Midland, 2·1; North-Western, 2·3; South-Eastern, 2·6; and North-Eastern, 4·7.

Comparing the provinces, we find that the per-centage of children born in Ulster, who were illegitimate, was 3·9; in Leinster, 1·9; in Munster, 1·6; and in Connaught, 0·7.

The extremes of the county rates are found in Down and Mayo. In the former of 5,832 births registered, 344, or 5·9, per cent. were illegitimate, and in the latter, out of 6,548 births recorded, only 29, or 0·4 per cent., were so classed.

The respective total birth-rates for the provinces in 1878 were—Munster, 26·3 per 1,000 of the population; Connaught, 25·0; Leinster, 24·7 per 1,000; and Ulster, 24·4.

The four counties having the highest rates were—Kerry, 29·8 per 1,000 inhabitants; Antrim, 29·3; Dublin, 28·8; and Mayo, 26·9. Those with the lowest rates were—Wicklow, 20·8; Fermanagh, 21·8; Queen's, 21·9; and Tyrone, 22·0 per 1,000 persons.

Of the total births, 53·4 per cent. were registered in the first six months of the year (181 days), and 46·6 per cent. in the second half of the year (184 days).

The number registered in the first quarter was 35,041; in the second, 36,591; in the third, 32,209; and in the fourth, 30,276.

TABLE VI.—Showing, by **Quarterly Periods,** the number of **Births** registered in Ireland in each of the five years 1873–77, and the average number for that period; also the number registered during each quarter of the year 1878:—

QUARTER ENDING	Years and Number of **Births** Registered.							Equivalent Annual Rate per 1,000 of Estimated Population.

DEATHS.

The deaths registered during the year amount to 99,629, being equal to 1 in 53·7 or 18·6 per 1,000 of the estimated population. The deaths of males number 50,116, and those of females 49,513, the former being equal to 19·3 in every 1,000 males living, and the latter representing 18·0 per 1,000 females.

The deaths are much over the average for the ten years 1868-77, and more numerous than in any year during that period.

The mortality from zymotic diseases, although somewhat under the average for the ten years 1868-77, is in excess of that in either 1876 or 1877; this is owing to the prevalence of measles in many of the Southern Districts of the country, a more than ordinary mortality from whooping-cough, and the prevalence of small-pox in the Metropolis.

Diseases of the Respiratory Organs were very prevalent, and the mortality from these causes was in excess of that in any of the preceding three years, in each of which deaths from diseases of this order were much over the average.

The deaths from the eight principal zymotic diseases * registered during 1878 form 11·6 per cent. of the deaths from all causes, and are equal to 217 in every 100,000 persons living; the average annual mortality from the same diseases in the preceding 10 years represents 12·3 per cent. of the average number of deaths from all causes, and is equal to 212 deaths in every 100,000 of the estimated mean population.

Sanitary improvements have been effected in many districts, and the Registrars thereof testify to the gratifying results which have ensued upon a judicious administration of the Public Health Act. It is, therefore, to be regretted that there are still many districts in which but little attention is devoted to this important subject.

As the principal notes on the public health furnished by the various Registrars were published in the quarterly returns at a time when they should have proved most likely to secure an abatement of then existing evils, it is unnecessary to reproduce them; but I regret to have to state that, according to the Registrars' reports, some palpable defects were long left unremedied.

The death-rates in the eight divisions range from 14·7 per 1,000 persons in the Western to 22·9 in the Eastern. The following is the order of the several divisions:—Western, 14·7 per 1,000 persons; North Western, 16·0; North Midland, 16·7; South Western, 18·6; North Eastern, 18·6; South Midland, 18·9; South Eastern, 22·7; and Eastern, 22·9.

With respect to the four provinces, the rate for Connaught is only 15·1; that for Ulster is 17·6; for Munster, 19·1, and for Leinster, 21·8.

Of the thirty-two counties, the four having the lowest registered mortality are—Mayo, only 14·1 per 1,000; Sligo, 14·6; Leitrim, 15·2; and Galway, 15·5.

Those in which the rate was highest are—Dublin, 27·7; Waterford, 24·8; Wexford, 23·2; and Kilkenny, 21·3.

The deaths registered in the first half of the year always largely outnumber those in the second. In 1878 55·3 per cent. of the total deaths were registered in the six months, January to June inclusive, and only 44·7 per cent. in the remaining six months of the year.

The annual rates represented by the deaths registered in each quarter are as follows:—First quarter, 21·1 per 1,000 of the population; second, 20·1; third, 15·2; and fourth, 18·1.

* Small-pox, Measles, Scarlet Fever, Diphtheria, Whooping cough, Fever, Diarrhœa, and Cholera.

TABLE VII.—Showing, by **Quarterly Periods**, the number of **Deaths** registered in Ireland in each of the five years, 1873-77, and the average number for that period; also the number registered during each quarter of the year 1878:—

CAUSES OF DEATH.

I.—ZYMOTIC DISEASES.

The deaths from Zymotic diseases registered during the year 1878 amounted to 14,877, or 278·02 in every 100,000 of the estimated population. This mortality, although somewhat under the average annual number for the ten years 1868-77, which was 15,333, is higher than the number in either of the last two years of that period. Compared with the year 1877, there was a decrease in the North-Eastern Division, but an increase in all of the other Divisions, the most marked increase being in the South-Eastern Division. The respective rates for the several Divisions are:—Eastern, 414·46 deaths in every 100,000 of the estimated population; South-Eastern, 403·39; South Midland, 304·93; South-Western, 290·02; North-Eastern, 232·08; Western, 227·86; North-Midland 214·53; and North-Western 158·27.

Of the 14,877 deaths from zymotic diseases, 8,853 or 59·5 per cent. were amongst children under 10 years of age, being equal to a mortality of 7 in every 1,000 children of that age.

TABLE VIII.—Showing, by DIVISIONS, the Number of Deaths from the principal Zymotic Diseases and from all diseases of that class *registered* in Ireland during the Ten Years 1868–77; the Average Annual Number for that period; with the Number *registered* in 1878, and the Rate represented thereby.

Small-pox.—There were 873 deaths from small-pox registered, including 9 returned as from varicella (chicken-pox). Of these deaths 640 were in the Eastern Division (including 135 in the North Dublin and 432 in the South Dublin Union), 101 occurred in the Western Division (including 97 in Galway Union), 61 in the South-Midland, 46 in the North-Eastern, 9 in the North-Midland, 7 in the South-Eastern, 5 in the South-Western, and 4 in the North-Western Division. In the year 1876 only 24 deaths from this cause were recorded, and in 1877 only 71, but the average annual number for the ten years 1868–77 was 569.

In the province of Leinster the deaths numbered 703, in Connaught 101, in Ulster 56, and in Munster 13.

Measles.—The deaths from measles amounted to 2,212, being more than double the average annual number (1,017) for the preceding ten years, and higher than in any year during that period; they are equal to an annual mortality of 41·34 per 100,000 persons. Measles was most fatal in the South-Eastern and South-Midland Divisions, the annual rates per 100,000 persons for these divisions being respectively 147·93 and 73·81.

Scarlet Fever.—The deaths from this disease number only 1,079, or 20·16 per 100,000 persons, against an average for the preceding ten years of 2,721 deaths. In all the Divisions the deaths were far below the average.

The deaths from scarlet fever in 1878 were distributed through the four provinces as follows:—Ulster, 470; Leinster, 294; Munster, 180; and Connaught, 135.

Diphtheria.—This disease proved fatal in 296 instances, being 8 over the number in the previous year, but 14 under the annual average for the 10 years 1868–77. In proportion to population, the highest mortality (8·97 per 100,000 persons), was in the North-Eastern Division, and the lowest (2·52) in the North-Western.

Quinsy.—This disease caused 169 deaths against 189 in the year 1877.

Croup.—The deaths from croup registered during the year 1878 numbered 1,220—660 males, and 560 females; in the preceding year this disease was the cause of 1,275 deaths.

Whooping-cough.—The deaths (2,183) from whooping-cough are 475 in excess of the average for the ten years, 1868–77, and 494 over the number for the year 1877; they afford an annual rate of 40·80 per 100,000 of the estimated population. In proportion to the population the mortality was highest in the South-Eastern and Eastern Divisions, the rates being 87·35 and 63·55 per 100,000 persons respectively.

Fever.—The number of deaths from the several forms of continued fever amounted to 2,945 (1,526 males and 1,419 females), equal to a mortality of 55·04 per 100,000 of the population; the average annual number for the previous ten years was 3,113, but the number in 1877 was only 2,785. The highest divisional rate per 100,000 persons in 1878 was 62·91 for the Eastern Division, which had also the highest average rate for the ten years 1868–77, and the lowest was 44·79 for the North Midland Division, in which the lowest average mortality for the ten years 1868–77 occurred.

There were only 12 Superintendent Registrars' Districts in which the deaths from fever equalled 1 per 1,000 of the population, viz. :—Belfast, in the North-Eastern Division; Dunfanaghy in the North-Western; Dublin North in the Eastern; Granard in the North Midland; Galway, Loughrea, Oughterard, and Westport in the Western; Lismore in the South-Eastern; and Dingle, Millstreet, and Tralee in the South-Western.

In Leinster there were 782 deaths, or 0·61 per 1,000 inhabitants; in Munster 804, or 0·58 per 1,000; in Ulster 859, or 0·46; and in Connaught 500, or 0·60 per 1,000.

Of the deaths registered from fever, 749 were ascribed to typhus, 965 to typhoid or enteric, and 1,231 to simple continued fever, or vaguely as to "fever." The age periods 15 and under 20 years, and 20 to 25, were those in which fever proved most fatal in proportion to the living at the same ages; the former yielding a rate of 77·56 per 100,000, and the latter 83·15.

The lowest rate was 32·98 for the period "under 5 years old."

TABLE IX.—Showing for the year 1878 the Deaths from the several forms of **Fever** at each Age-Period, with the proportion to the estimated number living at each Age represented thereby.

Erysipelas.—The deaths from erysipelas numbered 266, against an annual average of 308 for the preceding decade. The deaths from this disease in the year 1877 amounted to 312. The highest mortality in 1878 in proportion to the population was in the South-Western Division, and the lowest in the North Midland.

Metria or Puerperal Fever.—The number of deaths from this disease registered in 1878 was 315, being 62 less than in the preceding year. The average annual number for the ten years 1868–77 was 348.

Influenza.—Fifty-four deaths were ascribed to this disease; the number in 1877 was 93, and the annual average for the ten years 1868-77 was 122.

Dysentery.—To this disease 189 deaths were attributed, being 1 less than in the previous year, and 111 under the annual average for the ten years 1868-77.

Diarrhœa.—The deaths from diarrhœa were above the average. The disease proved fatal in 1,949 instances, equal to a mortality of 36·42 per 100,000 of the estimated population; the deaths in 1877 numbered only 1,604, and the average annual number for the ten years 1868-77 was 1,836. The highest Divisional rate in 1878 was 53·94 for the Eastern Division, and the lowest 18·48 for the North Midland.

The rates for the provinces were as follow:—Leinster, 44·0 per 100,000 persons; Munster, 42·5; Ulster, 35·1; and Connaught only 17·4.

Of the 1,949 deaths from diarrhœa, 426 were registered in the first quarter, 431 in the second, 688 in the third, and 404 in the fourth.

Simple Cholera.—Fifty-six deaths occurred from this disease.

A man aged 25 years, and a girl aged 7 years, died from *Hydrophobia.*

II.—Constitutional Diseases.

From diseases termed "constitutional" there resulted 17,014 deaths (8,087 males, and 8,927 females), affording a rate of 1 in 5·9 of all the deaths, and equal to 318 in every 100,000 of the population. This mortality differs but little from that for the previous year, or the average for the ten years, 1868–77.

Phthisis or Pulmonary Consumption proved fatal in 10,406 instances —4,937 males, and 5,469 females—being equal to 194·47 in every 100,000 persons; the average annual number for the previous ten years was 10,079.

The three Eastern Divisions as heretofore yield the highest rates, that for the North-Eastern being 258·28 in every 100,000 living, for the Eastern 249·06, and for the South-Eastern 196·25. The Western Division had the lowest rate, 112·67 per 100,000.

The rates for the four provinces are as follow:—Leinster, 229 per 100,000 of the population; Ulster, 222; Munster, 163; and Connaught, 130.

Of the total deaths from phthisis, 7,171, or 69 per cent, were of persons between 15 and 45 years of age.

In the first quarter there were 2,798 deaths registered; in the second 3,038; in the third 2,313; and in the fourth, 2,257.

TABLE X.—Showing, by DIVISIONS, the Number of Deaths from Phthisis or Pulmonary Consumption *registered* in Ireland during the Ten Years 1868–77; the Average Annual Number for that period; with the number *registered* in 1878, and the Rate represented thereby.

Mesenteric Disease.—The deaths from Mesenteric disease numbered 1,508—723 males and 785 females.

Hydrocephalus or Water on the Brain.—The deaths from this disease amounted to 1,077—609 males, and 468 females.

Scrofula.—To this disease 904 deaths were ascribed, (478 males and 426 females).

Gout.—Only 16 deaths from Gout were registered (15 males and 1 female).

Cancer.—This disease caused 1,913 deaths, of which 823 were those of males, and 1,090 of females.

Dropsy.—Under this heading 1,026 deaths were tabulated (419 males and 607 females).

III.—LOCAL DISEASES.

The number of deaths from "local diseases" registered amounted to 34,508 (18,700 males and 15,808 females), or 1 in 2·9 of the deaths from all causes; in 1877 the number was 33,305 (18,086 males and 15,219 females).

Diseases of the Nervous System.—From this group of diseases there resulted 8,464 deaths (4,628 males and 3,836 females), being 280 over the number in the year 1877. They include 3,624 from convulsions (nearly all children), 1,425 from paralysis, 1,075 from apoplexy, 723 from cephalitis or inflammation of the brain and its membranes, 393 from epilepsy, 241 from insanity, 6 (1 male and 5 females) from chorea or St. Vitus's dance, and 977 deaths (including 255 from necrencephalus or softening of the brain, and 148 from spinal marrow disease) entered under "brain disease, &c."

Diseases of the Organs of Circulation.—Diseases of the Circulatory Organs caused 4,399 deaths (2,313 males and 2,086 females); in the previous year the number was 4,386. "Heart disease" caused 4,207 deaths, aneurism 110, and pericarditis or inflammation of the heart's covering, 82.

*Diseases of the Respiratory Organs.**—The deaths from these diseases amounted to 15,371 (8,139 males and 7,232 females), being equal to 287 in every 100,000 of the population. The average number for the preceding ten years was 12,983, but the number for the year 1875 was 14,568; for 1876, 14,250; and for 1877, 14,565.

As in 1877 the Eastern Division had the highest rate, and the Western the lowest; the rate for the former division was 407·67 per 100,000 persons, and for the latter 171·20. Diseases of the respiratory organs were most fatal in the first quarter of the year, during which 4,943 deaths from these causes were registered; the number for the second quarter was 4,100; for the third 2,127; and for the fourth 4,201. As many as 11,550 of the deaths from these causes (5,813 males and 5,737 females) resulted from bronchitis; 2,179 (1,452 males and 727 females) were from pneumonia or inflammation of the lungs; 403 from asthma; 307 from pleurisy; 96 from laryngitis, and 836 were returned as from "lung disease," &c.

TABLE XI.—Showing, by DIVISIONS, the Number of Deaths from Diseases of the Respiratory Organs* *registered* in Ireland during the Ten Years 1868–77; the Average Annual Number for that period; with the number *registered* in 1878, and the Rate represented thereby.

Diseases of the Digestive Organs.—These diseases contributed 4,191 deaths (2,245 males, and 1,946 females). They include 313 from gastritis or inflammation of the stomach; 472 from enteritis or inflammation of the bowels; 263 from peritonitis or inflammation of the covering of the bowels; 356 from ileus or obstruction of the bowels; 217 from ulceration of the intestines; 141 from hernia; 4 (1 male and 3 females) from fistula; 683 entered under "stomach disease, &c."; 247 (147 males and

* Exclusive of Phthisis or Pulmonary Consumption, for which see "Constitutional Diseases."

100 females) from hepatitis or inflammation of the liver; 122 from jaundice; 1,082 (including 171—122 males and 49 females—from cirrhosis) entered under "liver disease, &c."; and 15 from spleen disease.

Diseases of the Urinary Organs.—To the various affections of this order of diseases 1,481 deaths (1,130 males and 351 females) were ascribed. Of these deaths, 409 (261 males and 148 females) were from nephria or Bright's disease, 119 from diabetes, 120 from cystitis or inflammation of the bladder; 87 from nephritis or inflammation of the kidneys; 40 from ischuria or suppression of the secretion of urine; 24 from stone in the bladder; and 682 (of which 229 were ascribed to prostatic disease) entered under "kidney disease, &c."

Diseases of the Organs of Generation.—Deaths from diseases of the organs of generation numbered 166, including 85 from ovarian dropsy, 78 from diseases of the uterus, &c.

Diseases of the Organs of Locomotion proved fatal in 252 instances, and *Diseases of the Integumentary System* in 184; of the latter number of deaths, 8 were caused by phlegmon, 92 (54 males and 38 females) by ulcer, and 84 by various skin diseases.

IV.—Developmental Diseases.

The number of deaths from this class of diseases in 1878 amounted to 28,461 (13,192 males and 15,269 females). Of the 550 deaths from the first order of these causes, 194 were ascribed to premature birth, 314 to teething, 10 to cyanosis, 22 to spina bifida, and 10 to other malformations.

The deaths registered from the accidents of childbirth amounted to 558; the average annual number for the previous ten years was 607. If to these 558 deaths registered in the year 1878, the deaths from metria (315) be added, we have a total of 873 deaths of parturient women, or the death of one mother to every 154 births registered during the year; the average annual number for the ten years 1868-77 was 955, being equal to 1 in every 151 of the average annual number of births registered. Eighteen deaths were tabulated under the head of paramenia.

The remaining deaths in this class are 22,243 (10,331 males, and 11,912 females) from "old age," and 5,092 from atrophy and debility.

V.—Violent Deaths.

The number of violent deaths registered during the year was 2,041 (1,437 males and 604 females), or 38·14 in every 100,000 of the population, being slightly under the average for the ten years 1868-77. Accidents or negligence caused 1,839 deaths (including 692 from fractures and contusions, 394 from burns or scalds, and 473 from drowning), there were 92 cases of homicide (murder and manslaughter), 93 of suicide, and 17 violent deaths which being vaguely returned were not classed.

[Table.

TABLE XII.—Showing, by DIVISIONS, the Number of Deaths in Ireland caused by Violence (including Accidental, Homicidal, and Suicidal Deaths), *registered* during the Ten Years 1868–77; the Average Annual Number for that period, with the number *registered* in 1878, and the Rate represented thereby.

Inquests.—There were 2,704 inquests reported to the Registrars during the year 1878, being 1 inquest to every 37 deaths registered.

In 240 instances of sudden death the cause was not ascertained.

In 1865 there was 1 death in every 19 registered which could not be classed, owing to the cause of death having been either ill defined or unspecified; in 1878 such deaths only equalled 1 in every 40.

AGES.

Deaths of infants under 1 year old numbered 12,993, being equal to 9·7 per cent. of the number of births registered.

Amongst children under 5 years of age 23,506 deaths occurred—a mortality equal to 36·2 in every 1,000 of the living at that age. Of these, 12,404 were boys and 11,102 girls; the former number representing 37·7 in every 1,000 boys, and the latter 34·7 in every 1,000 girls under 5 years old.

The deaths of persons aged 65 years and upwards are equivalent to 10 per cent. of the living at that age.

Amongst the deaths registered are 858 of persons stated to have been aged 95 years and upwards—397 males and 461 females.

EMIGRATION.

According to the Returns obtained by the Royal Irish Constabulary and the Metropolitan Police, who acted as enumerators at the several Irish seaports, the number of emigrants who left Ireland during the year 1878 amounted to 41,124; of these, 20,916 were males and 20,208 females. Of the whole number, 7,371 were from Leinster; 12,833 from Munster; 16,240 from Ulster; and 4,680 from Connaught.

Of the emigrants in 1878, 17·0 per cent. were under 15 years of age; 68·5 per cent. were between 15 and 35 years old; and 14·5 per cent. were 35 or upwards.

PRICES OF PROVISIONS, AND PAUPERISM.

The average prices, in Dublin, of bread and oatmeal in 1878 were slightly under, and the average prices of potatoes somewhat over those for the preceding year; there was no appreciable change in the average prices of beef, but the tendency in the latter part of the year was in favour of the consumer. The average price of Messrs. Manders and Co.'s 4-lb. loaf was 7½*d.*, being ½*d.* under the average price in the year 1877; oatmeal averaged 17*s.* 0*d.* per cwt., being 10*d.* under the mean price for 1877. The average prices of potatoes ranged from 4*s.* 9*d.* to 7*s.* 6*d.* per cwt., against 4*s.* 8*d.* to 6*s.* 6*d.* in 1877; and those of beef from 60*s.* to 76*s.* per cwt., against 58*s.* to 76*s.*

TABLE XIII.—AVERAGE PRICES in DUBLIN of BREAD, OATMEAL, POTATOES, and BEEF, during the years 1868-78, and the AVERAGE NUMBER of PERSONS in IRELAND receiving IN-DOOR and OUT-DOOR RELIEF on Saturdays in those years; also the AVERAGE PRICES of PROVISIONS and the AVERAGE NUMBER of PERSONS in RECEIPT of RELIEF during each quarter of the year 1878.

4th „ „ .	7	14 7	3 10 „ 6 0	57 0 „ 69 0	48,342	34,976

Surveying the period covered by the several Tables in this Report, *i.e.*, 1878, and the ten years preceding, it is found that beef was lowest in the year 1868, when the average prices ranged from 51*s.* to 65*s.* per cwt.; bread in 1869 and 1870, for each of which the average price of Messrs. Manders' 4lb. loaf was 6¾*d.*; oatmeal in 1871, when the average price was 15*s.* 1*d.* per cwt., and potatoes in 1875, when the average range of prices was from 2*s.* 11*d.* to 4*s.* 7*d.* per cwt. The highest average price

of bread was 8¼*d.* in 1868, of oatmeal, 18*s.* 8*d.* in 1874; the highest range for potatoes, 4*s.* 6*d.* to 8*s.* per cwt. in 1873, and for beef, 64*s.* to 82*s.* 6*d.* per cwt. also in 1873.

From Returns, for which I am indebted to the Local Government Board, it appears that the average number of workhouse inmates in Ireland on Saturdays during the year 1878 was 48,406, being 3,518 over the average for the preceding year; and that the average number of persons receiving out-door relief was 35,796, or 2,631 over the corresponding number for 1877.

THE WEATHER.

The following particulars have been extracted from Returns of Meteorological Observations taken at the Ordnance Survey Office, Phœnix Park, Dublin, during the years 1868-78, furnished by direction of the Superintendent of the Ordnance Survey.

The mean height of the barometer at 9.30 A.M. during the year 1878 was 29·943 inches, against an average of 29·922 inches for the preceding ten years. The highest reading during the year (30·688) was on the 16th March at 9.30 P.M., air calm, and the lowest (28·919 inches) was on the 7th October at 9.30 P.M., wind E.

The mean temperature for the year was 49·3°; the highest registered was 79·4° on the 26th June and the 23rd July, and the lowest was 9·3° on the 24th December. The average mean temperature for the ten years 1868–77 was 49·5°.

Yearly Average 1868-77.	29·922	57·7	41·1	49·5	·808	197	28·678	18	19	33	31	29	83	86	35	31
1878, .	29·943	57·5	41·3	49·3	·804	217	28·039	4	29	20	44	32	84	86	36	30

Rain or snow fell on 217 days during the year, against an average of 197 days for the preceding ten years, the amount being 28·039 inches, or ·639 in. under the average annual rain-fall for the ten years 1868-77.

The prevailing wind was W., it having blown from that point on 86 days at 9.30 A.M., with an average pressure of 4·24 lbs. per square foot. The wind blew from S.W. on 84 days; from S.E. on 44 days; from N.W. on 36 days; from S. on 32 days; from N.E. on 29 days; from E. on 20 days; from N. on 4 days, and the air was calm on 30 days, at 9.30 A.M. The strongest wind (S.W.) was on the 6th March, the pressure being 10·50 lbs. per square foot.

In concluding these remarks, I beg to report that, briefly stated, the main results shown by an analysis of the registration records for last year are as follow:—The marriage-rate, although it did not fall quite so low as in some recent years, was under the low average rate for the ten years 1868-77; the birth-rate also was below the average, being, in fact, lower than in any other year since 1864, when the births and deaths registration Act came into operation; while the death-rate was above the highest rate reached during that period—a result chiefly attributable to the general prevalence of acute diseases of ther espiratory organs, and an excessive mortality from measles. In the great majority of instances where there was medical attendance the cause of death was fully and precisely given, but the number of cases in which there appears to have been no medical attendant during the last illness is very remarkable. The periodical notes furnished by the Registrars show that there is a gradually extending interest manifested in sanitary matters; still very much remains to be effected in that direction. Emigration, although slightly greater than in either of the two years immediately preceding, was far below the average.

I have already referred to deficiencies in registration as in part accounting for the low rates of marriages, births, and deaths in Ireland; this deficiency is most marked in Roman Catholic marriages, many of which, I fear, remain unregistered. Any defects there are in the registration of deaths would be removed by a provision requiring notice of the death to be sent to the Registrar, previous to interment, and as regards births, I beg to repeat a suggestion which I submitted in my Report for the year 1875:—

"In the case of Births, many instances having been reported to this department in which births have not come to the knowledge of the Registrars until after the expiration of six months from the date of birth, and consequently too late for registration, I consider that an extension of

the time for registration, would, under all the circumstances, be advisable. With this change, and the aid to be derived from the effective working of the Compulsory Vaccination Act, the registration of births should approach very near to absolute completeness."

I have the honour to be

Your Grace's faithful servant,

W. M. BURKE, F.C.P.I.,
Registrar-General.

GENERAL REGISTER OFFICE,
CHARLEMONT HOUSE,
Dublin, 28th June, 1879.

Topographical Description of the Eight Divisions into which Ireland has been divided for Statistical purposes.

No. I., THE NORTH-EASTERN DIVISION.—This division may be described by a line passing southward from Lough Foyle through the counties of Londonderry, Tyrone, and Armagh, to Lough Bawn, in the county of Monaghan, and thence eastward to Carlingford Lough; the north and east being on the seaboard.

No. II., THE NORTH-WESTERN DIVISION, is bounded on the east by the division just described, from Lough Foyle to a point a little south of Six Mile Cross, in the county of Tyrone, and may be described by a line drawn thence S.W. through the county of Fermanagh to the south of Enniskillen, embracing that portion of the north-west angle of the county of Cavan belonging to the Enniskillen Union, into the county of Leitrim, crossing Lough Allen, thence into the county of Sligo, to a point situated to the southward of the town of Ballymote, and thence extending north to Ballysadare Bay; the remainder of the division is bounded by the sea. It contains Loughs Erne and Derg, and part of Lough Allen, and large portions of it are mountainous.

No. III., THE EASTERN DIVISION, is situated in the provinces of Leinster and Ulster; it extends along the Irish Sea and St. George's Channel, from Warrenspoint, in the county of Down, to the south of Cahore Point, in the county of Wexford, stretching inland about twenty-five miles, and embracing the counties of Louth, Dublin, and Wicklow, and portions of the counties of Carlow, Cavan, Kildare, Meath, and Wexford; together with small portions of the counties of Armagh and Monaghan.

No. IV., THE NORTH MIDLAND DIVISION, is situated in the provinces of Leinster, Ulster, and Connaught, and extends southward from its junction with the "North-Western" division near Six Mile Cross, in the county of Tyrone, to Tyrrellspass, in the county of Westmeath. Virginia, in the county of Cavan, is situated on its eastern border, and Tulsk, in the county of Roscommon, on its western.

No. V., THE SOUTH MIDLAND DIVISION, situated in the provinces of Leinster and Munster, extends from the Hill of Down, in the county of Meath, southward to Borris, in the county of Carlow. Its southern boundary may be described by a line drawn thence to New Birmingham, in the county of Tipperary, and from that point south to Fethard, in the same county, thence westward to the northern base of the Galty mountains, and in a north-westerly direction, to Pallasgreen, in the county of Limerick. On the east it is bounded by the "Eastern" division, and on the west by the "Western" and the "South-Western" divisions.

No. VI., THE WESTERN DIVISION.—This division extends southwards from Sligo and Killala Bays to the northern bank of the River Shannon, lying westward of Limerick; the extreme points, north and south, being Benwee Head, in the county of Mayo, and Loop Head, in the county of Clare, a distance in or about 120 miles, which, however, does not represent the extent of seaboard, the western coast being indented by numerous bays and inlets. This division has been extended much more inland than the eastern division, as from its exposure to the Atlantic Ocean, and the prevalence of westerly winds (which blow for nearly three-fourths of the year), the climate must be affected for a considerable distance inland; the Unions situated on the extreme east are Boyle, Castlereagh, Glennamaddy, Mountbellew, Ballinasloe, and Portumna.

No. VII., THE SOUTH-EASTERN DIVISION.—This division extends from its junction with the "Eastern" division, southward of Cahore Point, in the county of Wexford, along the eastern and southern coasts to the east of Cork Harbour, and is bounded on the north by the "South Midland" division. It embraces the county of Waterford, nearly the whole of the county of Wexford, parts of the counties of Carlow, Kilkenny, and Tipperary; that portion of the county of Limerick (38,550 acres) comprised in the Mitchelstown Union, and a portion of the eastern side of Cork county.

No. VIII., THE SOUTH-WESTERN DIVISION, extends along the southern and western coasts from Cork Harbour to the River Shannon, and embraces the county of Kerry, nearly the whole of the counties of Cork and Limerick, and a small portion of the county of Clare, comprised in the Limerick Union.

POPULATION OF IRELAND (including Army, Navy, and Merchant Seamen on shore and in port) *estimated* to the middle of each of the Years 1801 to 1878, inclusive:—

NOTE.—This table has been constructed for the years 1801 to 1831—By adopting the rates of increase of the male and female population between 1821 and 1831, as shown by the Irish Census Reports of 1831—the first complete Census of Ireland having been taken in 1821.

1832 to 1841—By adopting the rate of increase between the population of 1831 and 1841, according to the Irish Census Report of 1841.

1842 to 1846—By taking the English average birth-rate of 1 in 31, and death-rate of 1 in 45, and deducting the annual emigration from Ireland according to the returns received from the Emigration Commissioners in England.

1847 to 1851—The English birth-rate, as above, was used, deducting the number of deaths and the number of emigrants in each year, as given in the Irish Census Reports of 1851; an allowance, proportioned to the number of recorded deaths and the number of emigrants being made in each year for the excess of the number thus arrived at for 1851 over the actual population according to the Census of that year.

1852 to 1871—The English birth and death rates, as above, were used, deducting the number of emigrants according to the returns obtained by the Registrar-General for Ireland, and allowing for excess over Census numbers for 1861 and 1871 as explained for the last period.

1872-8—By assuming the average annual excess of births over deaths to equal 1 per cent. of the population, and deducting the number of emigrants according to the returns obtained by the Registrar-General.

ANNUAL ABSTRACTS

OF

MARRIAGES, BIRTHS, AND DEATHS.

1878.

ABSTRACT OF MARRIAGES.—Marriages *registered* in Ireland, pursuant to the

DIVISIONS AND SUPERINTENDENT REGISTRARS' DISTRICTS.*	Area in Statute Acres, exclusive of the larger Rivers, Lakes, and Tideways.	Population, 1871.	TOTAL MARRIAGES. NOTE.—The Registrars' Districts are sub-divisions of the Unions or Superintendent Registrars' Districts, and are identical with the Dispensary Districts of the same names, except in a few instances.

The letter *W* denotes that the Registrar's District contains within its limits the Workhouse belonging to the Union or Superintendent Registrar's District.

Wherever the minus sign (—) is prefixed to the numbers given in the column headed "Excess of Births over Deaths," it denotes that the births in the Registrar's District, instead of exceeding the deaths, were, in fact, *less than the deaths*, to the extent stated

IRELAND.—SUPPLEMENTARY TABLE of the

[In the Tables of Causes of Deaths, pp. 102–109, all the Diseases, either having a distinct character, or fatal to any considerable number of persons, are classified under 116 heads; some of which, however, include groups of very distinct diseases,—such as are fatal to only a *few persons*, or *diseases* which are often confounded with other diseases. The rule has been to refer the distinct diseases to heads under which the cases were so numerous that the additional numbers would not interfere with the calculated proportions. Where it is desired

* Thus, the number of Marriages in the Abbeyleix Superintendent Registrar's District may at once be ascertained by referring in the "*Abstract of Marriages*" to the Superintendent Registrar's District, numbered 75 (*see* page 38), and in like manner the number of Births and Deaths, of Deaths at different ages, &c., will be found by referring to the same Superintendent Registrar's District Number in the appropriate Tables.

INDEX TO REGISTRARS' DISTRICTS.

[The Number against each Registrar's District in the Third Column refers to the page in which the Total Births, Illegitimate Births, Deaths, &c., in the District during the year are given.]
